SECTION 1: IDENTIFICATION

1.1. Product Identifier

Product Name: Dr. Smith’s Diaper Rash Spray, Dr. Smith’s Rash & Skin Spray, Dr. Smith’s Adult Barrier Spray

Group Codes: 0178-0340-03, 0178-0345-03, 0178-0348-06

Patients/Consumers: Please refer to the product information insert or product label for appropriate consumer-specific information about this product when used according to the physician’s directions. Pharmaceutical Agent – Handling of this product in its final form presents minimal occupational exposure risk.

1.2. Intended Use of the Product

Use of the substance/mixture: Rash Treatment

1.3. Name, Address, and Telephone of the Responsible Party

Company
Mission Pharmacal
38505 IH 10 West
Boerne, Texas 78006
830-249-9822

1.4. Emergency Telephone Number

Emergency Number: 830-249-9822 (24 hour)

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the Substance or Mixture

GHS-US classification

Flam. Aerosol 2 H223
Compressed gas H280
Aquatic Acute 2 H401
Aquatic Chronic 2 H411

Full text of hazard classes and H-statements: see section 16

2.2. Label Elements

GHS-US Labeling

Hazard Pictograms (GHS-US):

[Diagram showing pictograms]

Signal Word (GHS-US): Warning

Hazard Statements (GHS-US):

H223 - Flammable aerosol.
H280 - Contains gas under pressure; may explode if heated.
H401 - Toxic to aquatic life.
H411 - Toxic to aquatic life with long lasting effects.

Precautionary Statements (GHS-US):

P210 - Keep away from extremely high or low temperatures, ignition sources, and incompatible materials. - No smoking.
P211 - Do not spray on an open flame or other ignition source.
P251 - Pressurized container: Do not pierce or burn, even after use.
P273 - Avoid release to the environment.
P391 - Collect spillage.
P410+P403 - Protect from sunlight. Store in a well-ventilated place.
P410+P412 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.
P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations.

2.3. Other Hazards

Hazards Not Otherwise Classified (HNOC): Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use.

2.4. Unknown Acute Toxicity (GHS-US)

No data available
Dr. Smith’s Diaper Rash Spray, Dr. Smith’s Rash & Skin Spray, Dr. Smith’s Adult Barrier Spray

Safety Data Sheet
According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

*The specific chemical identity and/or exact percentage of composition have been withheld as a trade secret within the meaning of the OSHA Hazard Communication Standard [29 CFR 1910.1200].

SECTION 4: FIRST AID MEASURES

### 4.1 Description of First Aid Measures

**First-aid Measures General:** If you feel unwell, seek medical advice (show the label if possible).

**First-aid Measures After Inhalation:** The risk of inhalation exposure is negligible when product is in its final packaged form. If exposed and become symptomatic, move to fresh air and get medical attention if symptoms persist.

**First-aid Measures After Skin Contact:** Basic hygiene and appropriate precautions should prevent skin contact. If skin contact occurs, wash affected area with soap and water for at least 15 minutes. Should skin irritation, allergic reaction, or rash occur, remove contaminated clothing (if required) and seek medical advice.

**First-aid Measures After Eye Contact:** The risk of eye exposure is negligible when product is in its final packaged form. If eye contact occurs, flush immediately with water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.

**First-aid Measures After Ingestion:** Ingestion is not an anticipated route of exposure. If accidental ingestion occurs, flush mouth out with water and get medical attention.
4.2. Most important symptoms and effects, both acute and delayed
Symptoms/Injuries: Please refer to the package insert for more detailed information.
Symptoms/Injuries After Inhalation: None expected under normal conditions of use.
Symptoms/Injuries After Skin Contact: None expected under normal conditions of use.
Symptoms/Injuries After Eye Contact: None expected under normal conditions of use.
Symptoms/Injuries After Ingestion: Ingestion is likely to be harmful or have adverse effects.

4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed
If exposed or concerned, get medical advice and attention.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing Media
Suitable Extinguishing Media: Water spray, fog, carbon dioxide (CO$_2$), alcohol-resistant foam, dry chemical, or sand.
Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

5.2. Special Hazards Arising From the Substance or Mixture
Fire Hazard: Flammable aerosol.
Explosion Hazard: Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.
Reactivity: Reacts violently with strong oxidizers. Increased risk of fire or explosion.

5.3. Advice for Firefighters
Precautionary Measures Fire: Exercise caution when fighting any chemical fire.
Firefighting Instructions: DO NOT fight fire when fire reaches containers. Evacuate area.
Other Information: Do not allow run-off from fire fighting to enter drains or water courses.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal Precautions, Protective Equipment and Emergency Procedures
General Measures: Do not get in eyes, on skin, or on clothing. Avoid all contact with skin, eyes, or clothing. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking.

6.1.1. For Non-emergency Personnel
Protective Equipment: Use appropriate personal protection equipment (PPE).
Emergency Procedures: Evacuate unnecessary personnel. Stop leak if safe to do so.

6.1.2. For Emergency Responders
Protective Equipment: Use appropriate personal protection equipment (PPE).
Emergency Procedures: Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit.

6.2. Environmental Precautions
Avoid release to the environment. Collect spillage.

6.3. Methods and Material for Containment and Cleaning Up
Methods for Cleaning Up: For small quantities associated with normal therapeutic use, collect spillage and transfer to a closed waste container for disposal. For large or bulk quantities, after absorption with inert material, collect spillage by sweeping up spilled material and place in a labeled, sealed container for proper disposal.

6.4. Reference to Other Sections
See Section 8, Exposure Controls and Personal Protection. See Section 13, Disposal Considerations.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for Safe Handling
Additional Hazards When Processed: Pressurized container: may burst if heated. Do not pierce or burn, even after use.
Precautions for Safe Handling: Do not spray on an open flame or other ignition source.
Hygiene Measures: This SDS is for a pharmaceutical agent - Handling of this product in its final form presents minimal occupational exposure risk. In an occupational setting, handle in accordance with good industrial hygiene and safety procedures. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use appropriate personal protective equipment when handling and observe good personal hygiene measures after handling.

7.2. Conditions for Safe Storage, Including Any Incompatibilities
Technical Measures: Proper grounding procedures to avoid static electricity should be followed.
Storage Conditions: Store in a dry, cool and well-ventilated place. Protect from heat and direct sunlight. Keep only in the original container in a cool, well ventilated place away from ignition sources. Protect from sunlight. Do not expose to temperatures exceeding 50°C/ 122°F.

7.3. Specific End Use(s)
SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control Parameters
For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), NIOSH (REL), or OSHA (PEL).

<table>
<thead>
<tr>

8.2. Exposure Controls

Appropriate Engineering Controls: Local exhaust and general ventilation must be adequate to meet exposure standards. Site-specific risk assessments should be conducted to determine the appropriate exposure control measures. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. Gas detectors should be used when flammable gases or vapors may be released.

Materials for Protective Clothing: Wear fire/flame resistant/retardant clothing.
Hand Protection: Wear protective gloves made from PVC, neoprene, nitrile, vinyl, or PVC/NBR.
Eye Protection: In laboratory, medical or industrial settings, or operations in which airborne particulates will be generated, safety glasses with side shields are recommended.
Skin and Body Protection: In laboratory, medical or industrial settings, impervious disposable gloves and protective clothing are recommended if skin contact with drug product is possible.
Respiratory Protection: When manufacturing or handling product in large quantities and dusts or particulates may be generated, maintain airborne concentrations below recommended limits. Workplace risk assessments should be completed before specifying and implementing respirator usage. NIOSH/MSHA approved respirators for protection should be used if respirators are found to be necessary.

9.2. Other Information  No additional information available

SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity: Reacts violently with strong oxidizers. Increased risk of fire or explosion.

10.3. Possibility of Hazardous Reactions: Hazardous polymerization is not expected to occur.

10.4. Conditions to Avoid: Direct sunlight. Extremely high or low temperatures. Direct sunlight, extremely high or low temperatures, heat, hot surfaces, sparks, open flames, incompatible materials, and other ignition sources.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1. Information On Toxicological Effects

Acute Toxicity: Not classified

Skin Corrosion/Irritation: Not classified

Serious Eye Damage/Irritation: Not classified

Respiratory or Skin Sensitization: Not classified

Germ Cell Mutagenicity: Not classified

Carcinogenicity: Not classified
### Reproductive Toxicity:
Not classified

### Specific Target Organ Toxicity (Single Exposure):
Not classified

### Specific Target Organ Toxicity (Repeated Exposure):
Not classified

### Aspiration Hazard:
Not classified

### Symptoms/Injuries After Inhalation:
None expected under normal conditions of use.

### Symptoms/Injuries After Skin Contact:
None expected under normal conditions of use.

### Symptoms/Injuries After Eye Contact:
None expected under normal conditions of use.

### Symptoms/Injuries After Ingestion:
Ingestion is likely to be harmful or have adverse effects.

12.4. Mobility in Soil  No additional information available
12.5. Other Adverse Effects  No additional information available

SECTION 13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

Waste Disposal Recommendations: Dispose of waste material in accordance with all local, regional, national, provincial, territorial and international regulations. Do not dispose of waste into sewer. Do not pierce or burn, even after use.

Ecology – Waste Materials: This material is hazardous to the aquatic environment. Keep out of sewers and waterways.

SECTION 14: TRANSPORT INFORMATION

14.1. In Accordance with DOT

Proper Shipping Name: AEROSOLS flammable, (each not exceeding 1 L capacity)
Hazard Class: 2.1
Identification Number: UN1950
Label Codes: 2.1
Marine Pollutant: Marine pollutant
ERG Number: 126

14.2. In Accordance with IMDG

Proper Shipping Name: AEROSOLS
Hazard Class: 2
Division: 2.1
Identification Number: UN1950
Label Codes: 2.1
EmS-No. (Fire): F-D
EmS-No. (Spillage): S-U
Marine Pollutant: Marine pollutant

14.3. In Accordance with IATA

Proper Shipping Name: AEROSOLS, FLAMMABLE
Identification Number: UN1950
Hazard Class: 2
Label Codes: 2.1
Division: 2.1
ERG Code (IATA): 10L

SECTION 15: REGULATORY INFORMATION
