QuikClot Bleeding Control Dressing

QuikClot Bleeding Control Dressing comes in two convenient sizes. Both are soft, white, nonwoven, hydrophilic gauzes impregnated with kaolin. QuikClot kaolin-based products accelerate the body’s own clotting process and promote clotting within minutes of application.

**QuikClot Bleeding Control Dressing, Item #538**, is packaged in an easy-tear, vacuum-sealed pouch and is a 3-inch x 4-yard z-folded strip of gauze.

**QuikClot Bleeding Control Dressing, Item #572**, is packaged in an easy-tear pouch and is a 3-inch x 4-foot rolled strip of gauze.

QuikClot Bleeding Control Dressing is intended for temporary external use to stop bleeding of superficial wounds, minor cuts, and abrasions.

Rotational Thromboelastometry (ROTEM) is used in bleeding situations to assess the viscoelastic properties of whole blood hemostasis. QuikClot treated blood shows a faster CT*, shorter CFT* and steeper α* than blood alone, which indicates that the clot is activated quickly and amplifies rapidly. The greater the amplitude of the graph, the firmer the clot (A10*, MCF*). As can be seen in the graph, QuikClot treated blood forms a stronger clot faster than untreated blood.

*Clot Time (CT) describes the onset of clot formation (in sec); Clot Formation Time (CFT) shows clot propagation (in sec); the alpha angle (α) is taken tangent to the clotting curve at 2mm (in degrees°); A10 is the Amplitude 10 minutes after CT; Maximum Clot Firmness (MCF) describes maximum clot firmness.

Instructions For Use

For Temporary External Use to Control Bleeding

**STEP 1:**
Open the package and remove the gauze.

**STEP 2:**
Place gauze on wound (i.e. minor wounds, cuts and abrasions) and use it to apply pressure over the bleeding source.

**STEP 3:**
Continue to apply pressure for 3 minutes or until bleeding stops. More than one gauze may be required.

**STEP 4:**
Leave gauze in place and wrap to secure on the wound. Seek medical attention if necessary. Do not leave gauze on more than 24 hours.

Ordering Information & Product Numbers

If you are ready to order, you can send a Purchase Order via fax to 1-800-343-8656, or email orders@z-medica.com.

Z-Medica* does not accept orders by phone.
