The Afinion™ AS100 Analyzer provides valuable near patient testing for today’s healthcare professionals. The Afinion™ Test System utilizes the latest technology and provides a simple, fast and reliable method by which to monitor patients’ disease progression.

**Simple. Fast. Reliable.**

- Multi Assay Analyzer System
- 3 Minute HbA1c - CLIA Waived
- 5 Minute Albumin/Creatinine Ratio (ACR)
- Short test time provides the opportunity for more timely treatment changes
- Easy sample collection and operation, minimal training required
- Reliable, lab quality results
3-step procedure

1. 
2. 
3. 

Facts

- Size: 12.6 x 6.7 x 6.7 in, weight: 11 lbs
- LCD color touch screen
- No manual calibration required
- Unique integrated failsafe system
- Allows for input of Patient ID & Operator ID
- USB connection for optional barcode reader and printer
- The Analyzer software can easily be upgraded via a USB flash drive to accommodate future tests

Connectivity

The Afinion™ Data Connectivity Converter (ADCC) allows for simple transfer of patient and controls results from the Afinion™ AS100 Analyzer to LIS/HIS system of choice.

- Results are transferred via Ethernet connection
- Available standard formats of HL7 or ASTM (selectable by configuration)
- ADCC configuration is performed in a web interface that can be opened in a common web browser

Available tests

Afinion™ HbA1c and Afinion™ ACR

Call your Moore Medical Account Manager for more information at 800.234.1464.
Afinion™ HbA1c

Test for quantitative determination of glycated Hemoglobin (HbA1c) in human whole blood, used to monitor metabolic control in patients with diabetes.

- 3 minutes test time
- Excellent precision (< 3% CV)
- No interference from Hb variants
- NGSP and IFCC certified
- CLIA waived
The 3-minute Afinion™ test fits perfectly within the workflow

“Immediate feedback motivates patients to make the necessary treatment changes.”

“Use of point-of-care testing for HbA1c allows for timely decisions on therapy changes, when needed.”

3-step procedure

1. 1.5 µL sample volume
2. 4-15% HbA1c measuring range
3. 3 months Test Cartridge room temperature storage
   • Integrated sampling device
   • Ready to use liquid Controls in 2 levels

Facts

- American Diabetes Association (ADA) Testing Recommendations
  • Perform the HbA1c test at least two times a year in patients who are meeting treatment goals and who have stable glycemic control.
  • Perform the HbA1c test quarterly in patients whose therapy has changed or who are not meeting glycemic goals.

Other available tests

Afinion™ ACR
